

Hurting World Ministries

Boquete (Canas Verdes), Chiriqui, Panama

What We Do

In 2014, we started this outreach to the Ngabe Bugle Indians in the township of Canas Verdes. We appointed a couple as pastors while we continued to build the Worship Center. Our mission is to reach all 100 families on the mountain with the Gospel of Jesus Christ. Many families on the mountain take advantage of our free Christian school and feeding program.

Sponsorship Info

It costs \$900 per year to feed and provide a complete Christian education to each child. Sponsors can either support the full cost for one child or be 1 of 2 sponsors at 450/year (Please see attached sponsorship form for details). This money feeds them two meals per day (which is huge in an extremely poor community) all educational supplies and teacher wages.

Get Involved

The families in Canas Verdes have many needs such as health, dental, vision and good nutrition. These families have very small incomes, so shoes, clothing and hygiene products are always welcome. During our current construction, skilled workers are needed. Volunteers at the primary school would be a big help for the teachers. If you are not familiar with our ministry, please ride up with us to experience the church and the school.

EL FARO CHRISTIAN SCHOOL

Our main focus is operating the El Faro Christian School. It sits high in the mountains above Boquete, Panama in the township of Canas Verdes. Its mission is to break the cycle of poverty by providing children with free, high quality, Christian education.

The students who attend the school come from poor, indigenous Indian families. Many of their parents are laborers on nearby coffee farms. These Ngobe families are desperately in need of help. On their own, they cannot afford to send their children to school. With your monthly sponsorship, each child receives textbooks, school supplies, uniforms, instruction from a loving teacher, and two nutritious meals a day.

For more information, or to sponsor a child, please contact us today at:
